Job brief

We are looking for a Chief Technology Officer (CTO) to provide sound technical leadership in all aspects of our business, Squizify. Whilst being technically minded is essential, we are also after an individual that is very operationally skilled as building out a team and culture of success is critical for this role. Along with working closely with the CEO, you will be required to communicate with employees, stakeholders and customers to ensure our company's technologies are used appropriately.

As we are a startup, in a very exciting space, we are after a strategic thinking individual that has strong business acumen. We expect you to be well-versed in current technological trends and familiar with a variety of business concepts.

Responsibilities

- Develop technical aspects of the company's strategy to ensure alignment with its business goals
- Discover and implement new technologies that yield competitive advantage
- Help departments use technology profitably
- Supervise system infrastructure to ensure functionality and efficiency
- Build quality assurance and data protection processes
- Monitor KPIs and IT budgets to assess technological performance
- Use stakeholders' feedback to inform necessary improvements and adjustments to technology
- Communicate technology strategy to partners and investors

Requirements

- Proven experience as a CTO or similar leadership role
- Knowledge of technological trends to build the strategy
- Understanding of budgets and business-planning
- Ability to conduct technological analyses and research
- Excellent communication skills
- Leadership and organizational abilities
- Strategic thinking
- Problem-solving aptitude
- Experience with technology relative to industry; .Net, C#, SQL Server, MongoDB, Solr, jQuery, Angular, AWS, IIS, GitHub, Grunt/Gulp, Node.JS, Java/C

We have recently come out of the initial product build stage (built in Australia) and are looking for a strong CTO to bring the platform in-house and continue the development. Even though we are in the early stages as a company we have managed to secure a number of large customers and have a healthy revenue stream coming in with no outside funding thus far.

The package for this role is negotiable as along with a base package there is a healthy equity stake in the business is for the right person.
